

Dear Friends and Partners in Life,

June is a special opportunity to celebrate fathers and the impact they have on their children's lives.

At the center, we often meet women facing unexpected pregnancies, and every pregnancy also involves a father. Sometimes he is excited. Sometimes he is afraid. Sometimes he feels unprepared and encourages abortion out of fear. Yet we see every day the difference a loving, involved father can make.

As we honor fathers this month, we are grateful for those who step up, support their families, and embrace parenthood. We also continue to pray for men who are struggling or who have not had positive examples of fatherhood. When fathers are supported, families are strengthened.

We are excited for all the Lord has in store this June and the summer ahead. We are also launching our Virtual Baby Bottle Campaign and invite you to participate as we continue offering hope and help to the families we serve.

Thank you for being part of this mission. Your prayers and support make this work possible.

May God richly bless you and your family this month.

With gratitude,

Anjali

Every life
has a story

and this is just
the beginning.

"Jessica" came to our center believing abortion was her only option. Life had been difficult. For years, her family had struggled with substance abuse, and she carried deep wounds from growing up without a healthy relationship with her own mother. As she faced an unplanned pregnancy, she could not imagine herself becoming the kind of mom her baby would need.

She came to CPC looking for information, and our team was ready to offer something more, compassion, support, and hope.

Over the course of four visits, she wrestled with her decision. Some days she leaned toward choosing life; other days fear and uncertainty seemed overwhelming. Then, after several months without hearing from her, we wondered how her story would unfold.

Today, we are rejoicing.

Last month, she welcomed a beautiful baby boy into the world.

Not only did she choose life for her son, but she also chose a new path for herself. Through resources shared by our center, she connected with a local shelter where she is receiving support and care. She is learning what healthy relationships look like, discovering that trustworthy people can walk alongside her, and taking steps toward a brighter future. She is working toward earning her GED and pursuing stable housing for herself and her son.

To God be the glory.

*Your Change...
Changes Lives!*

GIVE VIRTUALLY TODAY!

For years, churches and families have joyfully participated in our traditional Baby Bottle Campaign, filling bottles with coins, cash, and checks as a simple and meaningful way to support life-affirming ministry in our community.

Over time, we have recognized that the way people give is changing. Cash and checks are being used less frequently, and many families now do most of their giving digitally.

Our Virtual Baby Bottle Campaign is a fresh way to carry this beloved tradition forward. Instead of a physical bottle, you can still take part in the same meaningful practice in a more flexible and modern way. We invite you to “fill a bottle” at home by setting aside your change, or simply choose a meaningful gift amount, and then make your donation online when you are ready.

It is the same heart behind the tradition, just an easier way to participate in today’s world.

Give Virtually Today

This June, we have a few needs and would love your help.

First, we are calling all prayer warriors. We would love to have prayer teams come to CPC to walk through our building and our new lot next door, praying over the ministry, the families we serve, and all that God is doing here. If you have a prayer group or team that would be willing to come and cover our space in prayer, we would be so grateful.

We also have a few practical needs as summer arrives. Our building could use a good cleaning, and we would love to connect with a team willing to come and give it a fresh wash and refresh.

Finally, our back lot could use some attention as well. The grass is beginning to grow and soon will be a "summer jungle". We need help mowing and clearing it. If you or your group enjoys outdoor projects and are not afraid of a bit of a “summer jungle,” we would appreciate your help getting it cleaned up.

Thank you for being willing to serve alongside us in both prayer and practical support. If you're feeling led reach out to Anjali by email at anjali@cpcanchorage.com.
